LUCIFER, BY SNOWSTORM, WILL stand the present season at COTTAGE HILL, on the Frankfort and Georgetown Turnpike, 3 miles from the Forks of Elkhorn, and 7 miles from Frankfort, at \$150 in sure a colt, and pasturage furnished gratis to mares coming from a distance.

Description and Pedigree.

Lucifer is a black iron gray, 5 years old, with heavy white mane and tail; 15% hands high, and is a horse eminently calculated to produce stock suited to every purpose for which the horse is required. Being himself beautiful in appearance, of proper size, fauitless in form, mild and gentle in disposition, with action both for harness and saddle rarely equalled, very few, if indeed any, horse in Kentucky of his age can show greater trotting speed in harness, and it has been with great difficulty that he has been restrained from going all the saddle gaits, being sired by old Snowstorm, who went one gait as naturally as another, and all with unparalleled speed and style, and produced more fine saddle and harness horses in the two seasons he made in Kentucky than any other horse known. He was of the pure Norman French breed from Canada, and his colts are commanding wherever found extravagant prices. Lucifer's dam was a large brown mare: blood unknown; was a natural pacer and could, without training, pace her mile in 3 minutes.

Tell invite the attention of breeders to this young horse, at his stand, where I have a good track, and where persons wishing to breed can have an opportunity of witnessing hisspeed. Description and Pedigree.

HOWARD ASSOCIATION.

PHILADELPHIA.

PHILADELPHIA.

A Benevolent Institution established by special Endowment for the Relief of the Sick and Distressed, afflicted with Virulent and Epidemic Diseases.

THE HOWARO ASSOCIATION, in view of the awful I destruction of human life caused by Sexual diseases, and the deceptions practiced upon the unfortunate vietims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS to all whe apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in case of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical Skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, express the highest satisfaction with the success which has attended the labors of their Surgeons in the cure of Spermator-those, Seminal Weakness, Gonorrhose, Gleet, Syphilis, the vice of Onanism or Self-Abuse, Disease of the Kidneys and Bladder, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent efforthave been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable Report on Spermatorrhose, or Seminal

with renewed zeal, to this very important and much de spised cause.

An admirable Report on Spermatorrhoza, or Seminal Weakness, the vice of Onanism, Masturbation, or Self-Abuse, and other diseases of the Sexual organs, by the Consulting Surgeon, will be sent by mail-(in a scaled envelope) FREE OF CHARGE, on receipt of TWO STAMPS for postage. Other Reports and Tracts on the nature and treatment of Sexual diseases, diet, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment diseavered during tion, and will be sent to the afflicted. Some of the new reemedies and methods of treatment discovered during the last year are of great value.

Address, for Report of treatment, DR. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2, South Night Street, Philadelphia, Pa.

MR. and MRS. GEORGE W. BRUCE. Miss Kate Howard.

I used to think sometimes that Kate was made of sunshine. She had the most unclouded brow ever saw, and her eyes shown with a light was a man of great wealth, stern in his bearing and proud of his position in the world. Her mother was a small, timid, fairy-like creature, and I do not believe these two people, so total ly unlike each other, could have ever lived happily together had not Kate been sent as an equal izer between the two extremes. Kate was blind to none of these things and Dr. Bell and Mr. Ross-neither of them ever great favorites with the young lady they were addressing—grew less and less such every

One afternoon Dr. Bell proposed going down on the flats target shooting. He was a capital shot himself, and promised himself much sport at witnessing Mr. Bruce's efforts to hit the mark. The flats consisted of several low, marshy fields, which, for the purpose of draining, had been ditched at regular distances, each ditch being and pace, her efforts to hold her horse being all about two feet deep and one wide—these were fruitless. Mr. Bruce was a tall, slender, pale young man, not at all handsome, but exceedingly graceful. He seemed like one not much accustomed to mixing with the world, for his introduction had embarrassed him and he had blushed twice.—Blushes are not used in the grand toilette du monde. They are cosmetics prepared by nature and the world replaces them with the works of physicist it deems experient. ### The Maynard Rifle and Shot-Gun. PATENTED BY Dr. Edward Maynard, of Washington, D. C.

THE undersigned are the sole agents in Kentucky for the above celebrated arms.

The barrels are from 20 to 26 inches in length, and are breach-loading. The Rifle barrels may be disengaged, and the shot barrels inserted in ten seconds.—When charged, the gun may be fired with the self-primer or a cap may be used. It can be loaded and discharged with certainty of aim ten times a minute. At 1,300, 700 and 500 yards upon experiment, the gun was found accurate and the penetration surprising.

The Stock and Rifle barrel weigh six pounds, and may be put up in a small case.

## Scrofula, or King's Evil

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, St. ANTHONY'S FIRE, Rose, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS BASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in

their action can rarely withstand or evade them. Their penetrating properties search, and cleanss, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowsis, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consump. tion, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Everybody about the State House admired Ettie, but it was with a respectful admiration, and if a gruff legislator was tempted to jest with

pealing from her heaven-blue eyes.

Ettie always brought a full basket and went tripping home with an empty one, and her scarlet silk purse filled with silver coin. She was known, and made the fruit from her basket ten imes sweeter.

When the great Union meeting of the Tennessee, Kentucky and Ohio Legislatures was held in Ohio's Capitol, the beautiful orange girl was tripping about, disposing of her fruit to the "sons of the South," and receiving the homage of admiring glances from all.

At the end of one of the halls, viewing the

noble row of princely residences on Third street, stood alone a youthful member of the Tennes. see Legislature, when he was startled by a silvery voice asking:

'Buy an organge sir?' 'How do you sell them?' said the stranger, ooking into her eyes.

'Five cents each,' said the maiden, holding a large one towards him. 'Cheap.'
'Indeed they are.'

This introduction opened the way for a prolonged and serious conversation, in which the girl artlessly revealed to the stranger the poverty of her home, and the necessity of her porting her sick mother. ... e was so struck with Henry county, Ky, on Saturday, 23d of this the girl's manner and singular beauty, that he secretly resolved to visit her home and become more intimately acquainted. GENERAL ORDERS, No. 4.

Headquarters Kentucky State Guard, Louisville, May 22d, 1860.

1. The attention of officers of the Kentucky State Guard is called to that section of the Military Law which makes it the duty of the Inspector General to see that all officers shall qualify themselves for the duties of their respective positions. A close and careful study of "Hardee's Rifle and Light Infantry Tactics," on the part of the officers and non-commissioned officers is the only present means of their acquiring a proper degree of theoretical instruction, and preparing themselves for the summer encampments. The Tactics can be procured at most of the book-stores in Louisville, at \$13 50 per dozen copies. Every company should provide itself with not less than that number.

2. The following rules will be observed by commanders in the instruction of their companies and other commands:

a. The officers and non-commissioned officers will be assembled as frequently as possible for the purpose of discussing and reciting on the Tactics. They will also be thoroughly drilled, so that each may become qualified as an instructor in his appropriate command.

b. Instruction, both theoretical and practical, will be given, according to the division of lessons in the Tactics, as the readiest mode of attaining proficiency.

c. Particular attention will be given to the following points of the instruction:

1. Doubling and undoubling files, both at a halt and

## HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repu tation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved

a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear body and mind is generally aggravated. Here, theu, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength. All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial. Gentlemen: I take pleasure in saying to you that the
Water Wheel, (four feet in diameter double issued)
purchased of Mr. Samuel Reynolds, the inventor, is
now in operation and is giving me entire satisfacton,
coming fully up to what it was recommended to do.—
My firstrial with it was at a very low stage of water,
only three and a half feet head. It gave full power, for
one run 42 inch Burrs, Bolts, Smut Mill, &c., with the
gate % open. When the water rose so as to give me
five feet head I have full for two run of Burrs, doing
full work, so that under the full head (six feet) I have a
surplus of power.

Thave run in backwater to the depth of four feet with
no perceivable loss of power. This Wheel is put in
place of a thirteen feet diameter Breast Wheel, and
gives fully double the power with about the same amount
of water that it did. I therefore take pleasure in paying you for it, believing that I now have a wheel that
will last me 20, perhaps 50 years.

Signed,
Very truly yours,
